PROFESSIONAL SUMMARY

Result-driven **Python Backend Developer** with **1 year of professional experience** specializing in designing and implementing scalable server-side applications. **AWS Certified Cloud Practitioner** with proven expertise in Django, RESTful API development, and cloud infrastructure. Demonstrated success building production-grade applications with strong focus on code quality, performance optimization, and collaborative development. Passionate about solving complex technical challenges and contributing to high-impact projects.

PROFESSIONAL EXPERIENCE

Python Backend Developer

2024 - Present (1 Year Experience)

- Architected and deployed scalable RESTful APIs using **Django REST Framework**, handling complex business logic and ensuring seamless client-server communication
- Implemented efficient database operations using **Django ORM** for MySQL and PostgreSQL, optimizing queries to reduce load time by 30%
- Deployed and managed production applications on **AWS** services (EC2, S3, RDS, IAM), establishing secure cloud infrastructure with auto-scaling capabilities
- Integrated third-party services including **Cashfree Payments** API for secure payment processing and **FCM Notifications** for real-time user engagement
- Managed background tasks and scheduled jobs using **Celery**, improving application performance and user experience
- Collaborated with frontend teams using **Git/GitHub** workflow, conducting code reviews and maintaining clean repository structure
- Debugged and optimized backend performance in **Linux-based environments**, resolving critical issues and implementing monitoring solutions

TECHNICAL SKILLS

Programming & Backend Development: Python, Django, Django REST Framework, FastAPI, RESTful APIs

Database Management: MySQL, PostgreSQL, MongoDB (basic), Query Optimization, Schema Design, ORM

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda, IAM), Docker (basic), CI/CD Pipelines

Tools & Platforms: Git, GitHub, Postman, VS Code, Linux (Ubuntu/Debian), Docker, AWS CLI

Integrations: Cashfree Payments API, FCM Notifications, Celery Task Queue, Email Services

Soft Skills: Problem-solving, Technical Documentation, Agile Methodology, Team Collaboration, Communication

KEY PROJECTS

EV Rental & Booking Management Platform (Ridev.in)

Django REST Framework | Cashfree Payments | Celery | Amazon S3 | FCM

- Developed comprehensive backend system for electric vehicle rental platform supporting 500+ daily bookings
- Implemented secure payment processing with Cashfree API handling security deposits, subscriptions, and rental extensions
- Architected automated background tasks with Celery for subscription checks, charging logs, and real-time notifications
- Stored EV images and documents securely in Amazon S3 with IAM-based access control and encryption
- Designed RESTful APIs for vehicle listing, authentication, booking workflow, and payment management

B2B Steel Pipe Marketplace Platform (Pipemantra)

Django | Django REST Framework | MySQL/PostgreSQL | Amazon S3

- Built scalable B2B marketplace connecting 200+ steel manufacturers, traders, and industrial buyers
- Implemented complete quotation workflow from inquiry submission to supplier responses and lead tracking
- Designed secure product catalog system with advanced filtering, comparison, and technical specification management
- Integrated Amazon S3 for document storage with role-based access control ensuring data security
- Developed automated notification system and validation rules for accurate procurement processes

Online Fireworks E-Commerce Platform (Sun Fireworks)

Django | Django REST Framework | MySQL | Amazon S3

- Created feature-rich e-commerce backend supporting seasonal product management and dynamic pricing
- Implemented user authentication, cart management, order processing, and inventory tracking systems
- Designed automated order status tracking and customer notification workflows
- Optimized product search and filtering for improved user experience and conversion rates
- Managed product assets on Amazon S3 with optimized delivery and security protocols

CERTIFICATIONS & CREDENTIALS

✓ **AWS Certified Cloud Practitioner (CPC)** - Amazon Web Services | Demonstrates foundational knowledge of AWS services, architecture, and best practices

✓ **PCAP – Certified Associate in Python Programming** - Python Institute | Professional certification validating advanced Python programming competency

EDUCATION

Bachelor of Technology (B.Tech) | Electronics and Communication Engineering

Godavari Institute of Engineering and Technology | JNTUK | 2024

DECLARATION

I hereby declare that all information provided in this resume is accurate and truthful to the best of my knowledge. I am committed to maintaining professional excellence and contributing effectively to organizational goals. I welcome the opportunity to discuss how my skills and experience align with your organization's needs.
